

We received a warning today from the Charlotte-Mecklenburg Police Department regarding some burglaries in the area of Providence Rd West, which is the other end of Barberville Rd in Pineville. The vehicles are a white Nissan 4-door (possibly a Sentra with NC plates) and a gold Nissan 4-door (possibly an Altima with TN plates). These vehicles have been seen in the area of at least two residential burglaries. In both cases, black males driving one of the vehicles would go to a house and ring the doorbell or knock on the door. If no one answered, they would leave and the other vehicle would come to the residence a few minutes later and the house would be burglarized.

This is verified information from surveillance video, however you should keep in mind that many burglars frequently change vehicles and often use rental cars. Be suspicious of anyone ringing doorbells or knocking on doors during the day when no one is at home.

Sgt. Eric D. Brown, I.C.P.S.
