

I would like to make everyone aware of the increase of thefts from storage buildings. These thefts have been happening all over the county. The subjects are targeting storage buildings that are out of sight from your neighbors and are hidden from the roadway. I ask that if you can lock your storage building. The popular items that are being taken are power tools such as: Drills, chainsaws, circular saws, weed trimmers, and small tool boxes containing hand tools. Most of these items are usually not documented by the property owner. I ask that if you or someone who you know has a storage building with items similar to what I have listed above to document the following: Make, model, serial #, horse power rating, color, and sizes. By documenting these items you will be helping our Deputies and Investigators track down these items and possibly catch the subjects who are taking these items.

Thanks Sam Funderburk Crime Prevention
